

FERNANDO MEJÍA

Guatemala, Guatemala • [linkedin.com/in/fernando-mejia-866a4b363](https://www.linkedin.com/in/fernando-mejia-866a4b363) • fernandomejiadev@gmail.com
• github.com/FernadoCodeDev • fercode.netlify.app/

Front-end and back-end developer with solid knowledge of Astro, React, Tailwind CSS, Laravel, and NodeJS. He has created more than six personal projects applying principles such as MVC, responsive development, and REST API consumption. I seek to continue growing as a full-stack developer, combining my technical skills with my drive to learn.

EXPERIENCE

Survey Container

surveycontainer.wordpress.com

React · TypeScript · Node.js · Express · SQLite · WordPress

Development of a complete NPM package for managing internal surveys, designed as a modular, scalable, and reusable solution. A documentation website was also developed using WordPress to facilitate implementation.

This project was created as part of a professional technical test.

StarIA

staria.netlify.app/

Astro · React · TypeScript · Tailwind CSS · OpenAI API

Web platform for creating conversational agents powered by artificial intelligence. It uses the OpenAI API and allows you to configure custom assistants from a modern interface, tailored to teams and businesses.

This project was created as part of a professional technical test.

CódiGol

codigol-demo.netlify.app/

React · Tailwind CSS · JavaScript · Clerk

An educational video game developed to interactively learn Tailwind CSS. In each match, the user applies Tailwind classes to score goals, facing real-life design challenges.

This project was featured in the MiduDev 2025 Hackathon.

LandingMine

landingmine.netlify.app/

React · Vite · Tailwind CSS · JavaScript

Interactive catalog with 19 landing pages, each with a unique design geared toward different business sectors.

Created to demonstrate mastery of responsive design, modern interface development, and reusable components.

Cosmic Pizza

github.com/FernadoCodeDev/Cosmic-Pizza

PHP · JavaScript · MySQL · MVC

Web-based booking platform developed for a pizzeria, adaptable to any business that needs to schedule spaces.

Includes features such as menu management, table counts, login, and online booking.

Keys Homes

keyshome.atwebpages.com/

PHP · MySQL · JavaScript · SASS

Real estate website designed to showcase properties, facilitate contact forms, and improve client communication.

Ideal for entrepreneurs looking for a functional solution without the need for complex platforms.

TECHNICAL SKILLS

Front-End: Astro, JavaScript, TypeScript, Bootstrap, Redux, React, Tailwind CSS, Vite

Back-End: PHP, Laravel, Node.js

Databases: MySQL, SQLite, PostgreSQL

Tools: Git, GitHub, Figma, Postman, WordPress, npm, Clerk SDK

Development practices: MVC architecture, RESTful APIs, CRUD, responsive development, E-R modeling

LANGUAGES

Spanish: Native

English: A2 (Pre-Intermediate)

EDUCACIÓN

High School / Diversified Secondary Education

DIGEEX (General Directorate of School Education) – Guatemala, Guatemala

Completion in 2025

ADDITIONAL TRAINING

Complete Web Development with HTML5, CSS3, JS, AJAX, PHP, and MySQL

Udemy – Ended in 2024

Duration: 82.5 Hours

Content learned: HTML, CSS, JavaScript, SASS, PHP, MySQL, MVC Architecture
