

# FERNANDO MEJÍA

Guatemala, Guatemala - fercode.netlify.app - fernandomejiadev@gmail.com  
linkedin.com/in/fernando-mejía-866a4b363 - github.com/FernandoMejiaDev

---

Front-end and back-end developer with solid knowledge of Astro, React, Tailwind CSS, Laravel, and NodeJS. He has created more than six personal projects applying principles such as MVC, responsive development, and REST API consumption. I seek to continue growing as a full-stack developer, combining my technical skills with my drive to learn.

---

## EXPERIENCE

### Cooktopia

[cooktopiashop.netlify.app/](https://cooktopiashop.netlify.app/)

PHP · Laravel · MySQL · JavaScript · React · Tailwind CSS

Development of a full-stack e-commerce platform specializing in kitchen items, including form-based product management and simulated integration with WooCommerce via a REST API with CRUD endpoints.

This project was created as part of a professional technical test.

### Survey Container

[surveycontainer.wordpress.com](https://surveycontainer.wordpress.com)

React · TypeScript · Node.js · Express · SQLite · WordPress

Development of a complete NPM package for managing internal surveys, designed as a modular, scalable, and reusable solution. A documentation website was also developed using WordPress to facilitate implementation.

This project was created as part of a professional technical test.

### StarIA

[staria.netlify.app/](https://staria.netlify.app/)

Astro · React · TypeScript · Tailwind CSS · OpenAI API

Web platform for creating conversational agents powered by artificial intelligence. It uses the OpenAI API and allows you to configure custom assistants from a modern interface, tailored to teams and businesses.

This project was created as part of a professional technical test.

### CódiGol

[codigol-demo.netlify.app/](https://codigol-demo.netlify.app/)

React · Tailwind CSS · JavaScript · Clerk

An educational video game developed to interactively learn Tailwind CSS. In each match, the user applies Tailwind classes to score goals, facing real-life design challenges.

This project was featured in the MiduDev 2025 Hackathon.

### LandingMine

[landingmine.netlify.app/](https://landingmine.netlify.app/)

Astro · JavaScript · React · Vite · Tailwind CSS

Interactive catalog with 13 landing pages, each with a unique design geared toward different business sectors.

Created to demonstrate mastery of responsive design, modern interface development, and reusable components.

## Cosmic Pizza

[github.com/FernandoMejiaDev/Cosmic-Pizza](https://github.com/FernandoMejiaDev/Cosmic-Pizza)

PHP · Laravel · TypeScript · VueJS · Tailwind · MySQL · MVC

Web-based booking platform developed for a pizzeria, adaptable to any business that needs to schedule spaces.

Includes features such as menu management, table counts, login, and online booking.

## Keys Homes

[keyshome.atwebpages.com/](https://keyshome.atwebpages.com/)

PHP · MySQL · JavaScript · SASS

Real estate website designed to showcase properties, facilitate contact forms, and improve client communication.

Ideal for entrepreneurs looking for a functional solution without the need for complex platforms.

---

## TECHNICAL SKILLS

**Front-End:** Astro, JavaScript, TypeScript, Bootstrap, Redux, React, Tailwind CSS, Vite

**Back-End:** PHP, Laravel, Node.js

**Databases:** MySQL, SQLite, PostgreSQL

**Tools:** Git, GitHub, Figma, Postman, WordPress, npm, Clerk SDK

**Development practices:** MVC architecture, RESTful APIs, CRUD, responsive development, E-R modeling

---

## LANGUAGES

**Spanish:** Native

**English:** A2 (Pre-Intermediate)

---

## EDUCATION

**high school**

2024 -2025

CEEX (Centro de Educación Extraescolar) – Guatemala, Guatemala

Bachillerato en Ciencias y Letras orientación en productividad y emprendimiento

---

## ADDITIONAL TRAINING

Desarrollo Web Completo con HTML5, CSS3, JS AJAX PHP y MySQL

Udemy – Ended in 2024

Duration - 82.5 Hours

Content learned - HTML, CSS, JavaScript, SASS, PHP, MySQL, MVC Architecture
